

## Furniture & Wood

- Officers & Committee
- News & Past Events (Registered Members Only)
- Resources (Registered Members Only)

This Group exists to provide a focal point for all interested in wooden objects, from roof trusses to toy omnibuses.

The support of Group members through representation, publication, seminars and educational visits is the primary purpose.

Informal gatherings at places of general interest have proved very popular in the past and a very effective way of bringing ideas to the fore. The committee will promote more such conversation opportunities and any ideas for venues are very welcome. The Icon structure enables any members to attend any special interest group event and this exciting development will be utilized by the Group to broaden the appeal and scope of events.

Most importantly, this is your Group and its success depends upon your support. The committee's role is that of facilitator and is a flexible structure with members joining for just one event or for longer as the individual or Group wishes. Do get involved in whatever way you can.
